Improving your performance

Organization

The Novotek group is, together with its partners, delivering industrial-IT and automation solutions based on standard products and components. The commitment of the Novotek group is to deliver the RIGHT solution for every single customer in our field of expertise. Our focus is production, ranging from automotive via water treatment to petrochemical. We ensure our customers with the ability to meet their challenges by being able to optimize their production processes. Our goal is to secure your success and to keep you competitive.

Knowledge

In order to deliver the **RIGHT** solution we have identified three factors for success Staff, Products and the needs of Customers. The Staff is the most valuable resource we have at Novotek and we have a large group of competent, devoted and enthusiastic engineers delivering solutions every day to our customers. The basis of our solutions are always a combination of "best-of-breed" products. We have long ago seen the value of standard components in our solutions in order to keep the life cycle cost reasonable. Of course the best staff and products mean nothing if you are not able to see the needs of your customer. We have been in the business for the past twenty years and have been pioneers since the start.

Processes

We provide complete solutions based on standard products to deliver:

- OEE monitoring
- Energy Monitoring
- Predictive Maintenance
- Remote Data Acquisition
- Production Planning
- Process Improvement

Surroundings

We believe in securing the success of our customers because only then we can ensure a long lasting relationship. That's why we say "**Your Success Our Goal**".

Techniques

Novotek is a master distributor of GE Intelligent Platforms and provides standard components from the Proficy family from I/O to ERP.
